Rialto is a portable power and data distribution solution that brings technology safely from the wall to where you need it. The modular version allows you to modify the length of the power distribution, with individual 36" piece sections that are snapped together to create the length needed. Rialto is a perfect solution for making a any space a powered space.

Standard + Hospital Grade Features:

- Made of 2-piece structural aluminum and PC/PBT Plastic
- PC/PBT Plastic helps Rialto stand up to healthcare cleaning solutions
- Integrated channels for hiding, protecting and routing data cables
- 'Safe to Drive-on' construction (Hi-Lo tested).
- ETL Listed
- Features Byrne spill-proof technology
- Features Byrne's Hospital Grade Simplexes
- Designed to be easily deployed for use and broken-down for storage

What makes our products perfect for medical facilities?

- Our hospital grade outlets have been designed for use throughout the hospital facility outside the critical and general patient care areas.
- Our color-matched enclosures meet numerous agency approvals for performance and safety. They are stain resistant and durable against powerful cleaners.

Making powerful connections is who we are. Our wide range of power and charging products, and our 50-year history of innovative solutions has made us experts in creating products that stand up in the toughest environments. From design through development to delivery our hospital grade products are built not to meet industry standards, but exceed industry standards.
