Low-profile, low-voltage Garcia has two mounting styles to easily blend into your work surface and bring power where you need it. Whether edge-mounted on top of your work surface or hanging out below, Garcia's subtle design easily powers tablets, cell phones, and more.

Features:

- Available with: one or two 2.1 Amp USB A ports, or one 2.1 Amp USB A port and one 15 Watt USB C port
- LED charging indicator lights
- Two mounting styles: edge mount or under surface (the single port configuration cannot be edge mounted)
- 72" power supply cord with a barrel connector
- Available with a LINAK DESKLINE® connector for height adjustable tables. For more information, [contact Byrne](#).

What makes our products perfect for medical facilities?

- Our hospital grade outlets have been designed for use throughout the hospital facility outside the critical and general patient care areas.
- Our color-matched enclosures meet numerous agency approvals for performance and safety. They are stain resistant and durable against powerful cleaners.

Making powerful connections is who we are. Our wide range of power and charging products, and our 50-year history of innovative solutions has made us experts in creating products that stand up in the toughest environments. From design through development to delivery our hospital grade products are built not to meet industry standards, but exceed industry standards.
