Standard Product Details

In healthcare environments, supporting isolated patients with the tools they need to stay connected to family and friends can make all the difference. Here, the freestanding, height-adjustable tripod design of our PowerComm Station allows you to move technology support wherever it's needed. It features either dual USB-A charging or USB-A/USB-C ports for easy power access. Brackets are sized to securely hold a standard tablet or iPad. 12-foot cord reaches easily from wall outlets to bedside.

Available as a complete solution or as a standard charging kit to easily retrofit common tablet stands. Shop the charging kit separately [here](#).
