Standard Product Details

We could say that E2X is two-faced, but that might give you the wrong impression – and this honest, hard-working dynamo simply doesn't have a bad side. It is, however, an ideal solution for tables that require access to power/data from both sides. E2X is scalable and totally customizable to accommodate your specific technology needs. It can be ordered with 4, 6 or 8 ports on either side and boasts a wide range of technology accessories. With several different finish options to also choose from, E2X really is, well...whatever you need it to be!

Standard Features:

- Two back to back Ellora units within a single grommet
- Each power unit (2) receives its own cord
- Connectivity points are located below worksurface
- Technology may remain connected while lid is closed, concealing connections
- Requires cutout in surface
- Includes a Voice/Data Adapter Kit (BE01421) to accept couplers & jacks when required.
- Fits in tops 3/4" to 1-3/4" thick.
- UL Listed
- Available with Byrne spill-proof simplexes
- Configurations with four or more power receive a Circuit Breaker Cord

Additional power, data, size and finish options are available. Don't see what you're looking for online? [Just give us a call.](#)
