

BYRNE FACEMASK EXTENDER

ADJUSTABLE SURGICAL MASK HEADBAND

Surgical masks are critical gear in a variety of healthcare settings. But over time, a mask's elastic bands can irritate and even cut into the ears and face. Our mask extender provides an easy-to-use solution—releasing the tension and lifting the bands completely off the back of the ear, so the mask stays firmly, but comfortably, in place. The lightweight, tangle-free design also helps accommodate a variety of head sizes and hair styles.

PRODUCT DETAILS

Available in light pink, light blue and light gray.

Package includes ten (10) Byrne Facemask Extenders.

Compatible with most standard issued face masks.

Four (4) levels for extension provide multiple sizes.

INSTRUCTIONS FOR USE

- 1 Remove from packaging and bend slightly to prepare for use.
- 2 Connect one face mask strap by hooking it onto preferred extension level.
- 3 Hold the Byrne Facemask Extender against the back of head while wrapping mask across face.
- 4 Connect the second face mask strap by placing behind head and hooking it onto the extension level that provides a snug fit.

Byrne has been designated by some of its customers as their supplier whose continued operation is necessary to enable, support, or facilitate the work of their critical infrastructure workers pursuant to Section 9 (b) of Michigan Executive Order 2020-21. Due to health and safety concerns, our hospital grade products and/or face shields may not be returned once opened. For any questions on returns of unopened products, please contact your Byrne Rep.
