

Dubbel & Trippel

BYRNE

Dubbel™ and Trippel™

If the name makes you think “two,” then we got it right. Dubbel offers a USB A+C port and dual outlets for double the charging power. Its rounded profile and neutral finishes are both stylish and welcoming—the perfect addition to any workspace. Available in either an edge or under mount attachment. For friendly, modern design that delivers power where you need it—above or below the worksurface—make it a Dubbel.

Trippel offers all the great benefits our Dubbel does—a USB A+C port and dual outlets—but to complete the triple play we added a third: a convenient Qi charging pad. Simply rest your Qi-enabled phone on Trippel’s lid and you’re powering up. Surface mounts easily to any worksurface. For a modern solution that delivers all the power you’ll need—three different ways—Trippel’s the one.
