BYRNE

Finch®

OVERVIEW

Finch, like its feathered namesake, perches happily on the edge of any desktop or just below the surface. Available in a 3 or 5-port option, with power and fast charging USB-A and USB-C Combo.

Front and back, the 5-port option delivers three 110 outlets, two USB-A and three USB-C ports. Its clever two-sided design offers quick, convenient charging access from the front with plenty of power in back for items that tend to stay plugged in.

With smooth lines, and a gently curved aluminum extrusion, it is both modern and warm, unfussy and unassuming. Offered in a calming palette of new naturals, our Finch is beautifully at home in any working space.
