

BYRNE

SurgeSwap™

Surge Protection Plug Head

OVERVIEW

The first-ever, replaceable surge protection cartridge, SurgeSwap provides long-term, sustainable protection from damaging power surges and spikes. Installed at the plug head, Byrne's patented surge protection cartridge is easily replaced when surge protection wears out.

FEATURES AND BENEFITS

- Surge protected plug head, compatible with Byrne corded power solutions
- Indicator light to communicate surge protection status
- Replaceable surge protection cartridge protects plugged in electronics from power surges & spikes
- Flat plug with 45° cord angle allows for slim installation behind furniture
