Mho

Mho

Mho

Look what's popping up now: The next generation of flexible desktop power and data solutions for executive and institutional work station applications. Retractable and durably constructed, Byrne's Modular High Output convenience outlets are highly functional with a fluid one touch door that remains open during use. Constructed out of clear anodized aluminum, they are scalable to meet the varying power, data, and audio/visual requirements.

M2X

You never know where the next big idea might come from, so everyone should have the ability to power up and participate. M2X is a side-by-side solution for conference tables that provides access to power and data from both sides. And with M2X, power and data is totally concealable thanks to its one-touch access in an all-new, streamlined design. Scalable and customizable with Byrne's full line of technology accessories – the same used in our Mho – M2X offers a generous array of options to suit your needs and keep meetings collaborative.
