## 2.7 THE ALCHEMY OF DESIGN

We know how to design physical objects to fit the shape of human hand quite well. Unless you are a small child, or staying in a pretentious boutique hotel where everything is found at a height and in a shape that suits your hand, we all know to create objects which work entirely different purposes. Our steering wheels, our spectacles, our...

# Dot

## Dot Edge Mount

Power doesn't get any easier than this. Simply mount Dot to the edge of any work surface and you're ready to plug in—no installation required.

## Dot Under Mount

For when you need all the work space you can get, our under mount design puts power and data right where you need it, while keeping the desktop free.

## Dot In-Surface

Our Spill Proof Technology® helps round out Dot's flexible mounting options with a UL Listed solution for any flat work surface.
