

A photograph of a minimalist desk setup. On a wooden table, there is a white charging station with a smartphone on top and a pink cable plugged in. Next to it is a pink ceramic cup. A black tablet lies flat on the table. In the background, three terracotta vases of different sizes hold a large green monstera leaf. A pair of white headphones is draped over one of the vases. The scene is set against a white wall with a gold-framed picture on the left and a window with a black frame on the right.

Dean Qi

BYRNE

Dean Qi®

Dean Qi offers the same seamless, modern profile as our original Dean, but with great new wireless charging capabilities—simply set your Qi-friendly device on the lid. Dean Qi offers blended power and USB charging too. But here's the best part—that charging lid also allows endless opportunities to personalize your power with whatever inspires you. Color. Branding. Textures. You can even coordinate the body to any lid design in a wide range of fun finishes. Dean Qi. Smooth, smart desktop power and wireless charging with style that you can truly make your own.
