

A photograph of a modern, light-colored wooden desk in a minimalist setting. A silver laptop is closed on the desk. To the left of the laptop is a solid orange circular object. To the right is another orange circular object with three white icons: a power button, a USB symbol, and a Wi-Fi symbol. The word "Eclipse" is written in a large, white, serif font across the center of the desk. The background shows a light-colored wall with horizontal lines and a window with vertical bars.

Eclipse

BYRNE

Eclipse®

One part charming, one part cheeky, Eclipse is a great way to round out your power and data needs. First you see its modern circular simplex design—then the face cleverly rotates to hide away when not in use. Eclipse's energetic colors and soft touch finish bring a further hint of play to any fashionable work environment. Three port options. Mounts in surface. With functionality and personality to spare, Eclipse takes well rounded to a whole new level.
