Pod Power

A power system designed specifically for small, enclosed spaces, our Pod Power solution gives users access to power, and USB charging options. More importantly it includes an occupancy sensor controlling two 12V DC fan and an LED light circuit, ensuring comfort in even the smallest of enclosed spaces, while keeping power consumption at a minimum. Available as a fully listed kit, as just a control box or with components you can list, we'll work with you to make your solution perfect for your application!
