

DESK KIT FEATURES

Thoughtfully designed, preconfigured power kit solutions that spread out access to power throughout your workstation - with just one cord. For light to heavy power users, we've combined just the right amount of outlets along with the right location to create the perfect set up for your space. These kits deliver utility power below the desk for power-hungry tools that stay plugged in, and desktop power above the desk for easy access to frequently plug in, and unplug - mobile devices.

- 15 Amp Corded Infeed
- Access to power where it is most convenient
- Separated power units for tidy cord management and ergonomic power access
- Multiple power units connected with one single cord
- Preconfigured kits designed to meet various working styles
- Cord length and mounting styles designed to work with most common desk sizes
- Cord management and easy mounting kits included
