

Salt & Pepper

BYRNE

Salt & Pepper

It's time to add a little spice to your workspace. And we do mean little, with both of these cuties only requiring a 1-3/4" cut out for installation. Salt is a data dynamo with 2 amp dual charging USB, while pepper is all power with its circular simplex featuring Byrne's spill-proof technology. Available in five great finish options. Corded end. For functionality—and flavor—you can't beat a dash of Salt and Pepper.
